

SOLUTION VIEWS

# Leading the Integration Revolution

Your business problems have changed. Why hasn't your integration solution?

## Insurance Carrier Portal Application

### Agent Portal

Interactive & secure portal on carrier's website

### Customer Portal

View and manage accounts on carrier's website

## THE PROBLEM & THE RESOLUTION

Manual processes, lengthy delivery cycles for critical business initiatives, and technology barriers hinder the speed with which the insurance industry conducts business. Agents, for example, often find it difficult to access data in real time, making it hard to process information and make transactions. Problems like these slow the pace and achievable level of business results, but they don't have to any more.

Adeptia Insurance Accelerators directly address carriers' need for more immediate, more cost-efficient results. Adeptia's Accelerators speed up processes, reduce costs, reduce time to market, open the door to web services, and adapt to changing business scenarios with minimal IT intervention. Pre-built with industry standards and sitting atop Adeptia's BPM and Integration technology, they bring success faster and easier to carriers facing competitive pressures but constrained by legacy systems, limited IT resources and complex business processes..

## INSURANCE CARRIER PORTAL ACCELERATOR DELIVERS BUSINESS VALUE

Increasing your website's interactive capabilities and flexibility improves agents' experience by giving them better access to data, better self-service options, and the opportunity to view key reports. No longer constrained by business hours and inaccessible resources, their business day is far more productive.

Adeptia's Insurance Carrier Portal Accelerator offers the carrier an interactive secure portal – an electronic storefront – where its agents, partners, and insureds can better view, review, and manage their accounts. Insurance Carrier Portal Accelerator, in unison with Adeptia Business Process Management Server, lets agents transact business in real time over a secure web portal. You can add processes and transactions to portals that permit real-time access to data and real-time information processing. Moreover, your website achieves more functional efficiency at a cost lower than manual coding or that provided by similar portal products. This desirable scenario is a reality thanks to Insurance Carrier Portal Accelerator's features and benefits, and you can implement it quickly and easily, up to 75 percent faster than custom coding.

Insurance Carrier Portal Accelerator gives your agents a way to do business anywhere, anytime. Agents can login and use your portal to upload and download information, exchange data, and view reports. Insurance Carrier Portal Accelerator enhances the agent experience and gives them a convenient means of quoting, reporting, and customer documentation.

## INSURANCE CARRIER PORTAL ACCELERATOR:

- Provides real-time access to information
- Offers lower initial cost & maintenance cost
- Reduces operational costs
- Increases your websites' transaction capabilities
- Provides agents access to key reports
- Makes real-time information processing possible
