

Onboarding

Employee Benefits

Plans

Onboarding bi-directional data feeds

is complex and time consuming due to different data formats, data access methods, connection management and exception handling

Customers have to wait weeks

sometimes even months, before they get onboarded, and that leads to a poor customer experience

Self-service data onboarding

simplified into a business application that takes care of data exchange without relying on IT

Delightful customer experience

customers can onboard 80% faster in minutes instead of months

With 80% faster client onboarding, businesses can realize revenue faster, become easy to do business with, and delight clients

See how Adeptia can help you onboard 80% faster.
